

**15th Anniversary New Devices Seminar for the Cardiac and Peripheral Vascular Laboratory  
Course Program as of June 6, 2007 (subject to change)**

SATURDAY, JUNE 30		
7:00 AM	Continental Breakfast, Registration and Visit Exhibits	
<b>General Session: CTA</b>		<b>Moderator: Michael Wholey, M.D.</b>
7:30 AM	The State of CTA in 2007	Michael Wholey, M.D.
7:40 AM	Issues for Starting a Successful Cardiac CTA Practice	William Wu, M.D.
7:50 AM	Is There a Role Value in a Coronary Calcium Score?	William Wu, M.D.
8:00 AM	Cardiac CTA: Anatomical Background and Correlation in Angiography	Constantino Peña, M.D.
8:10 AM	Cardiac Function and Classification of Lesions	TBA
8:20 AM	Acquisition Problems and Solutions	TBA
8:30 AM	CTA and Structural Heart Disease	TBA
8:40 AM	CTA for the Thoracic and Abdominal Aorta	Constantino Peña, M.D.
8:50 AM	The Role of Peripheral CTA - How Does it Compare to MRA and Ultrasound?	Constantino Peña, M.D.
9:00 AM	CTA in Carotid Stenting and Stroke Management	Michael Wholey, M.D.
9:10 AM	New Trends in CTA	David Allie, M.D.
9:20 AM	Case Presentation # 1 Coronary	TBA
9:30 AM	Case Presentation # 2 Peripheral	Michael Wholey, M.D.
9:40 AM	Break	
<b>The Carotid Symposium - General Session</b>		<b>Moderator: Michael Wholey, M.D.</b>
10:10 AM	PRO/CON Carotid Endarterectomy: Is Here to Stay	Bruce Perler, M.D.
10:20 AM	Carotid Endarterectomy: Time to Say Good-Bye	Rajesh Dave, M.D.
10:30 AM	Defining Patients who Should Not be Stented	Rajesh Dave, M.D.
10:40 AM	Virtual Histology for Identifying Patients Best Suited for Stenting vs. Endarterectomy	Mark Wholey, M.D.
10:50 AM	Embollic Protection Devices: Proximal Flow Control, Are they all Created Equal?	Gary Ansel, M.D.
11:00 AM	Cell Designs for Lesion Characteristics: Does it Really Matter?	Mark Wholey, M.D.
11:10 AM	Intracranial Lysis for Stroke: Current Results	Lawrence Wechsler, M.D.
11:20 AM	Break	
11:40 AM	Are Cardiologists and Vascular Surgeons Qualified to Manage Procedural Strokes? Absolutely, we are Comprehensive Cardiovascular Experts!	John Reilly, M.D.
11:50 AM	Are Cardiologists and Vascular Surgeons Qualified to Manage Procedural Strokes? No way, they don't know the Difference between the Corpus Callosum and the Corpus Cavernosum!	Lawrence Wechsler, M.D.
12:00 PM	The Pluses and Minuses of Embolic Protection	Rajesh Dave, M.D.
12:10 PM	Case Presentation #1 Experts with Major Complications?	John Reilly, M.D.
12:20 PM	Case Presentation #2 Experts with Major Complications?	Lawrence Wechsler, M.D.
12:30 PM	Adjourn	

**15th Anniversary New Devices Seminar for the Cardiac and Peripheral Vascular Laboratory  
Course Program as of June 6, 2007 (subject to change)**

SUNDAY, JULY 1		
7:00 AM	Continental Breakfast, Registration and Visit Exhibits	
<b>Complexity of Lower Extremity Occlusive Disease Symposium - General Session</b>		<b>Moderator: James O'Toole, M.D.</b>
8:00 AM	Diagnostic Evaluation of Peripheral Vascular Disease	David Allie, M.D.
8:10 AM	Reconstruction for Distal Aortoiliac Disease	David Allie, M.D.
8:20 AM	SFA Total Occlusions - Existing Data on Bare Stents vs. Covered Stents	Gary Ansel, M.D.
8:30 AM	Surgery Remains the Gold Standard for SFA Disease	Bruce Perler, M.D.
8:40 AM	Deciding When to Use Atherectomy Devices, Stents, or Both	Gary Ansel, M.D.
8:50 AM	Recross Techniques - Device Technology Makes a Difference	Luke Marone, M.D.
9:00 AM	Thrombolytic Techniques and Results in Acute and Chronic Occlusions: Pulsed Angiojet vs. Conventional Lysis	Jacob Cynamon, M.D.
9:10 AM	Atherectomy devices has a place in popliteal, infratibial and common femoral occlusive disease: Technique and results	Michael Wholey, M.D.
9:20 AM	Lasers: My Choice for Infratibial, Proximal and very Distal Infratibial Occlusive Disease	David Allie, M.D.
9:40 AM	Surgical Management of Complications from Endovascular Procedures	Frank Veith, M.D.
9:50 AM	Case Presentation # 1: Endovascular Management of Multisegment Disease	David Allie, M.D.
10:00 AM	Case Presentation # 2 Experts vs. Volunteer Registrants in Managing These Complex Cases	Gary Ansel, M.D.
10:10 AM	Break	
10:30 AM	Renal Embolic Protection: Is it Necessary?	Kenneth Rosenfield, M.D.
10:40 AM	Endovascular Management of Acute Visceral Hemorrhage	Jacob Cynamon, M.D.
	Endovascular Management of Acute Visceral Ischemia	Jacob Cynamon, M.D.
10:50 AM	What's New in Renal Stenting	Kenneth Rosenfield, M.D.
<b>Workshops (11:00 AM - 12:15 PM)</b>		
<i>I. CTA for Physicians Interested in Coronary and Peripheral Vascular Applications, an in Depth Look</i>		Constantino Peña, M.D., & Michael Wholey, M.D.
11:00 AM	Overview of Current Status of CTA	Constantino Peña, M.D.
11:15 AM	Case Reviews from Faculty	Constantino Peña, M.D., & Michael Wholey, M.D.
11:45 AM	Case Reviews/Questions From attendees	
<i>II. Credentialing Issues, Procedural Complications and Neurorescue Techniques in Carotid</i>		Sriram Iyer, M.D., & Mark Wholey, M.D.
11:00 AM	Overview of Current Status of Neurorescue Techniques	Mark Wholey, M.D.
11:15 AM	Case Reviews from Faculty	Sriram Iyer, M.D., & Mark Wholey, M.D.
11:45 AM	Case Reviews/Questions From attendees	
<i>III. The Nurses Guide to Carotid Stenting</i>		Katherine Hill, R.N.
11:00 AM	Pre-Procedure, Procedure, Post - Procedure Care (A-Z)	Katherine Hill, R.N.
11:15 AM	Complications and Treatments	Katherine Hill, R.N.
11:45 AM	Case Reviews	Katherine Hill, R.N.
<i>IV. Technical Complications: Perforations, Bleeds, Stent Fractures, and Acute Occlusions Procedurally Related</i>		Ross Milner, M.D., Frank Veith, M.D., & Gary Ansel, M.D.
11:00 AM	Overview of Common Technical Complications	Ross Milner, M.D.
11:15 AM	Case Reviews from Faculty	Gary Ansel, M.D., & Frank Veith, M.D.
11:45 AM	Case Reviews/Questions From attendees	
12:15 PM	Adjourn	

**15th Anniversary New Devices Seminar for the Cardiac and Peripheral Vascular Laboratory  
Course Program as of June 6, 2007 (subject to change)**

<b>MONDAY, JULY 2</b>		
7:00 AM	Continental Breakfast, Registration and Visit Exhibits	
<b>General Session: Aortic Symposium</b>		<b>Moderator: Robert Rhee, M.D., &amp; Frank Veith, M.D.</b>
8:00 AM	Aortic Dissection (type B): TEVAR vs Conservative Management	Rodney White, M.D.
8:10 AM	Traumatic Aortic Transection: Lessons Learned	Robert Rhee, M.D.
8:20 AM	Endovascular Repair for Ruptured Aortic Aneurysms	Frank Veith, M.D.
8:30 AM	Small Aneurysms - Indications for Grafting	Luke Marone, M.D.
8:40 AM	Endoleaks: Who has the Answer?	Rodney White, M.D.
8:50 AM	Branched and Fenestrated Endografts vs Debranching	Mark Farber, M.D.
9:00 AM	New Trends in Aortic Endografting: Expanding the Indications	Rodney White, M.D.
9:10 AM	Percutaneous Approach to Stent Grafts for Aneurysmal Disease/Opening the Door for Cardiologists in IR	Ross Milner, M.D.
9:20 AM	Long Term Results of TEVAR	Mark Farber, M.D.
9:30 AM	Device Related Late Complications of EVAR	Robert Rhee, M.D.
9:40 AM	Case Presentation # 1	Rodney White, M.D., Luke Marone, M.D., Mark Farber, M.D., & Ross Milner, M.D.
9:50 AM	Case Presentation # 2	Mark Wholey, M.D., Robert Rhee, M.D., & Frank Veith, M.D.
10:00 AM	Break	
<b>Workshops (10:45 AM - 12:15 PM)</b>		
<i>I. Establishing a Practice for Endovascular Interventions</i>		Rodney White, M.D., Ross Milner, M.D. & Mark Farber, M.D.
10:45 AM	Overview of Issues in Establishing a Practice	Ross Milner, M.D.
11:00 AM	Case Reviews from Faculty	Mark Farber, M.D., & Rodney White, M.D.
11:30 AM	Case Reviews/Questions From attendees	
<i>II. Endoleaks - How should we treat and when?</i>		Mark Wholey, M.D., & Ross Milner, M.D.
10:45 AM	Overview of Current Status of Endoleaks	Ross Milner, M.D.
11:00 AM	Case Reviews from Faculty	Mark Wholey, M.D., & Ross Milner, M.D.
11:30 AM	Case Reviews/Questions From attendees	
<i>III. Complex Angles at the Neck, Problems at the Iliac &amp; Difficult Geometry for Endoluminal Stent Grafts</i>		Robert Rhee, M.D., & Luke Marone, M.D.
10:45 AM	Overview of Complex Angles	Robert Rhee, M.D.
11:00 AM	Case Reviews from Faculty	Robert Rhee, M.D., & Luke Marone, M.D.
11:30 AM	Case Reviews/Questions From attendees	
<i>IV. Nursing Essentials: The Aortic Endograft Patient</i>		Katherine Hill, R.N.
10:45 AM	Pre-Procedure, Procedure, Post-Procedure Care (A-Z)	Katherine Hill, R.N.
11:15 AM	Complications and Treatments	Katherine Hill, R.N.
11:45 AM	Supporting the Patient, Physician, and Medical Staff	Katherine Hill, R.N.
12:15 PM	Adjourn	

**15th Anniversary New Devices Seminar for the Cardiac and Peripheral Vascular Laboratory  
Course Program as of June 6, 2007 (subject to change)**

<b>TUESDAY, JULY 3</b>		
7:00 AM	Continental Breakfast, Registration and Visit Exhibits	
<b>Cardiology Symposium</b>		<b>Moderators: Bryan Donohue, M.D., &amp; James O'Toole, M.D.</b>
8:00 AM	Acute MI, The Interventional Approach	Bryan Donohue, M.D.
8:15 AM	Vulnerable Plaque	Tony Farah, M.D.
8:30 AM	Biodegradable Stents: Coronary and Peripheral Applications	Ron Waksman, M.D.
9:00 AM	New Approaches and Designs for Coronary Bifurcation Stenting	Rajesh Dave, M.D.
9:30 AM	Late Stent Thrombosis	Michael Cowley, M.D.
10:00 AM	Break	
10:15 AM	Technical Advances in the Treatment of Coronary Chronic Total Occlusions	Rajesh Dave, M.D.
10:30 AM	Left Main Stenting: Real World Experiences	Michael Cowley, M.D.
<b>The Debate on Drug Eluting Stents</b>		<b>Moderator: Bryan Donohue, M.D.</b>
10:45 AM	Debate: There are Still Major Questions Regarding the Efficacy of Drug Eluting Stents	Ron Waksman, M.D.
11:05 AM	Debate: Drug Eluting Stents are Here to Stay	James O'Toole, M.D.
11:25 AM	Questions from the Audience	
11:45 AM	The Courage Trial Results: How Do They Affect Current Patient Management	Chris Allen, M.D.
12:00 PM	Panel Discussions	Panelists: James O'Toole, M.D., Rajesh Dave, M.D., Ron Waksman, M.D., Michael Cowley, M.D., & Chris Allen, M.D.
12:30 PM	Adjourn
